# My target is to earn LET playing rights

**Tvesa Malik**

The Hero Women's Indian Open has always been a special tournament for me. The added significance is that it is staged at my home course, the DLF Golf and Country Club. Finally, the event itself is backed by Hero, who have supported me for so long.

The event has been a chance for us to measure ourselves against the best in Asia and the world. As things stand, Vani Kapoor is right on top and contending as we approach the final round. It is turning out to be a great week for the Indian contingent as ten of us have made the halfway cut. My immediate target is to secure my playing rights on the Ladies European Tour (LET) for 2027. Having played frequently on the tour, I know the level of competition and the consistency required to succeed there.
